18. 128 Tele-mental health in low and middle income countries
19. 124 The Clozapine Clinic: A Model of Integrated Care
20. 118 Improving specialist accessibility and involvement in treatment management planning for rural and remote mental health services
21. 259 Research on the relationship between the species of chronic diseases and medical services utilization and expenses: a cross sectional survey in rural areas of Jiangsu Province

Nominated papers

1. Workshop * 236 The consumer voice: Using co-design to improve transitions across the healthcare continuum (Sheather-Reid et al)
2. Workshop * 275 The complexity of partnering across sectors and community, a case example of Logan Together (Cox et al)

3. SIG session * 138 engAGE – Improving Outcomes for Older People in Hawkes Bay, New Zealand
4. Workshop *263 Outcomes Based Commissioning - can the care really follow the patient? An Australian perspective (Rachael Sheather-Reid)
5. * 182 Balancing our focus: The development of a collaborative approach between child development and children's mental health services
6. * 166 Establishing a rural research network to promote capacity and capability within rural communities in New Zealand
7. * 165 Outcomes for Indigenous and non-Indigenous children and young people in out-of-home care presenting at a specialist child and youth mental health service
8. * 271 Challenging the Status Quo ... Co-designing the future of child and youth mental health services with young people
9. * 246 My Plan: The evaluation of a person centred planning tool for people with traumatic brain injury and spinal cord injury
10. *134 Integrating care in Queensland
11. * 147 Reducing Avoidable Admissions in Rural Palliative Care
12. ** 258 Collaborative communities: engagement of service users towards prevention of Zika virus infection in Brazil
13. *164 The Perinatal Mental Health and Wellness Project: Improving perinatal mental health outcomes by working together across sectors
14. * 169 Less time in Hospital; more time at home
