- Centros Educativos
- Colegios Profesionales
- Confederación
- Empresas
- Fundación
- Universidad

CENTROS BENEFICIARIOS
- Marcar/Desmarcar todo
- Centro de mayores
- Centro de Salud

AGRUPACIONES COMPASIVAS
- Marcar/Desmarcar todo
- Asociaciones de voluntariado
- Comunidad
- Parroquias
Awareness and training programs beneficiaries:

- over 16,077 citizens.
- 4,040 children and 270 university students.
- 1,420 trained caregivers trained.
- 95 trained health and social professionals.
IMPLEMENTATION

• New professional role: community promoter.

• Integrated care team: health and social profesionales working along with the community.
A follow-up committee has been created between the community promoter and the town hall, social services and health centres in order to promote community networks around those who have advanced diseases or at the end of life.
REDCUIDA Protocol for the development and management of networks of care and compassionate communities around people with advanced diseases or at the end of life.
Community promoters

COMMUNITY NETWORKS:

- Identifying care networks.
- Identifying needs and those who cover the needs.
- Coordinating with professionals.
- Searching for community resources.
- Evaluating the results.

[RedCuida]
### Results from implementation
