Come to Wales to learn, share and stimulate new thinking
in health and care fit for the future

CONFERENCE THEMES

DAY ONE

Reflecting on the past and learning together

Comparing policies, strengths and opportunities across the UK
Redrawing the relationship for better health and care
Employers' responsibilities – workplace, commerce and industry
Community infrastructures – leisure, transport, housing, education
People, patient, communities
Heath and care systems
Driving quality together – a radical proposition
Wellbeing of Future Generations (Act)

DAY TWO

Capturing the passion and innovation in people

Creating a public conversation for change
Stimulating, supporting and spreading Innovation
Helping people help themselves
Collaboration between academia, NHS and industry
A workforce fit for the future
Innovative thinking in service delivery and care models
Innovative ways to measure impact and outcomes
Place based innovation and smart communities

If you are interested in presenting or showcasing your work please contact
