

A collaborative approach towards a dementia-friendly community

There's an African proverb "It takes a village to raise a child". This proverb is equally relevant to our older population. Therefore, we aim to bring the same loving care and awareness which we rightly give to the young, to those in our Community who live with Dementia.

People living with Dementia, their carers and our Community decided what this should look like and what we had to do.

Every resident in our local care home has an orientation clock

Our local Fire Station provides space for a Dementia Friendly Garden – a great opportunity for fire safety advice!

Relaxed film screenings at our local cinema

Simple environmental changes

FIRE AND RESCUE SERVICE
